EASTROUAKE.-The shock of an earthquake was very sensibly felt here at about I o'clock on Monday night.

Knoxville, Tenn., June 19, 1867.

Two young gentlemen on Gay street, disag read with each other on Monday evening, and drew their pistols to settle the difficulty, but were prevented from shooting by the interference of by-standers. The young men had imbibed too freely of intoxicating drinks, hence their difficulty.

Rossuss Asour .- On Monday night a robber enter e the house of Captain M. P. Chapin and stole his watch

CIRCUIT COURT .- This Court has dispatched a larger number of civil cases than usual. The most important that has been tried is that of Swan vs. Hudiburg, involving the worth of a roan mare .-The case has been on hand for a long time, until the costs have run up to at least three thousand dollars. Up to Tuesday morning the jury has failed to agree, as to who the mare properly belongs to.

The State docket was taken up on yesterday, and the court will first dispose of the jail-birds. Judge Hall has been very industrious in dispatching business by helding court from 71, A. M. to 6 P. M.

LATING THE CORNER-STONE OF THE NEW M. E. CHURCH-INTERESTING CEREMONIES.-These interesting ceremonies come off to-day at 10 o'clock A. м., with appropriate religious and masonic ceremonies. The whole proceedings will be entertaining, and will richly pay those of our citizens who may be present. Let all turn out and assist by their presence in this matter. This church, when completed will be the largest in town, and will be an honor, as well as an ornament to the city. Rev. A. A. Gee, of Nashville will be present and deliver the address to-day.

EAST TENNESSEE UNIVERSITY.-The closing excroises of this Institution will begin on Friday next, at which time the examinations will commence and continue until Tuesday noon. On Saturday morning, beginning at half-past 8 o'clock, the examination for the "Barnwell Mathematical Prize," will be held in the College Chapel. On Tuesday evening, the usual exhibition of the

held in the Chapel of the University. On Wednesday morning at 9 o'clock the declamations for the "Baxter Prize" will take place .-These examinations, exhibitions and declamations will be interesting.

THE FENIANS-May be rightly termed "The Rising Generation," and there is no telling what great results may be in store for the enthus astic warm-hearted "wearers of the green."

Young America baving settled his little difficulties on the basis of Freedom and Equality, now turns to matters of peace, and serencly acknowledges the fact that the "Barley Sheaf" Cooking Stove is as yet without an equal. As this excellent stove, however, is being imitated, we would advise the trade, and all interested, to satisfy themselves in every instance, that Stuart, Peterson & Co., Philadelphia, are the manufacturers.

ADVENTURE.—Three prominent gentlemen of our city, on arising from their beds one morning last week, looking over into the island in the river opposite town, discovered what appeared to them

They at once procured a yawl, armed themselves with pistols, and proceeded to the attack. On arriving at the object of their pursuit, it proving to be nothing more than a black hog who had by some hook or crook found his way into the island and was snugly enseenced there in that safe retreat from the hot June weather. The gentlemen administered an oath of secreey to each other, and turned their faces homeward, wher if not better

Ovening or Schleier's Gallery .- On Thurslay evening of last week, Mr. T. M. Schleier open ed his finely furnished Picture Gallery to the publie, by giving one of the most pleasant entertainments of the season. The Knoxville Brass and String Bands were present with the best of music, while Peter Kern was present with an abundance of his infinitable ice cream and cool drinks, and all went "merry as a marriage bell." Mr. Schleier is now ready to give entire satisfaction to those who may want business in his line. He will be found on Gay street, over Ramsey's Hall. See advertisting the street of the stree

E. J. Samponn & Co.-The establishment of this firm on Gay street, is one of the largest and most extensive of its kind that has ever been in our ity. They have a large supply and are able to upply the jobbing trade with Drugs, Medicines, Dyc-stuffs, Paints, Gils, Patent Medicine, Perfumery and Fancy Articles, all of which they are able to sell on the most reasonable terms. They also keep on hand a supply of all qualities and sizes of Window Glass, and also James River Cement. But we will not altempt an enumeration of their stock. Those visiting Knoxville for the purpose of buying anything in their line, should never think of purchasing without first examining their stock. See Passage and Freight at Reduced Rates. heir advertisement in another column.

FIRE DISTRICT .- A short time since, our city anthorities established what is known as the "Fire District," we believe, and in that boundary no wood houses were to be built. No houses of wood were to be built on Gay street or on Market Square .-This we believed to be a good movement, and yet believe it to be so. But we see a frame building going up on Gay street, next to Sheppard & Readman's furniture ware-room. If this is the way the law is to be enforced, it looks as if it will be practically no law at all. We presume, of course, that the party building this house, petitioned the Board and got their consent before commencing his or her house, but is it not establishing a bad precedent between the consent before commencing his or her house, but is it not establishing a bad precedent. believe it to be so. But we see a frame building her house, but is it not establishing a bad precedent to thus allow buildings of this character to go up on Gay street. No one who views the matter right feels an interest in the safety of the city from the a blunder has been commutated in this matter and we sincerely hope a similar one will not be allowed. Brick houses cost but a trifle more than frame who owns property on Gay street or Market Square, or elsewhere, is to be damaged by strictly adhering to the AMERICAN WIRE CO., 162 Broadway, N. T. houses, and they are more durable, and much safer, to this ordinance.

FOURTH OF JULY.—Arrangements are being DR. H. JAMES, A RETIRED PHYade to properly celebrate the Fourth of July in a anade to properly celebrate the Fourth of July in a becoming manner, and we suppose the committee Conghs, Cold and General Debility. The remody was discovered becoming manner, and we suppose the committee will be able to announce in our next issue, the programme for the occasion. We hope our citigens will all aid in this matter by contributing the 'necessary funds to make it a success. We want music, fireworks, flags and a great many other things which we will be unable to procure without some funds. Any one wishing to contribute, can do so by applying to any member of the financial committee announced in our paper a few weeks ago.—

Surely our citizens will not be so unpatriotic as to Surely our citizens will not be so unpatriotic as to refuse aid in a proper observance of the memorable Fourth. Let our country friends come out. Lay aside your plows, your scythes, your hammers, your planes, and let us all join once more in commemo rating the anniversary of our Independence as a Nation, in that good old style of former days. We have no doubt the different railroads coming into Knoxville will give half-fare tickets to those wishing to participate in the Knoxville Celebration.

The whole proceedings were to us very highly interesting, and we can say to those who were not present that they have lost a treat. The throng of Also, exclusive Manufacturers of the Patent happy school girls, with their smiling faces; the HARD sweet strains of music, both vocal and instrumental; the recitation of pieces well selected and well spoken, and in fact the whole exercises were conducted in a manner, of which those concerned may well feel proud. The school during its last session, under the supervision of Prof. Parkhurst and his KNOWN efficient assistants has been very successful, as it certainly deserved to be. We hope to see it more extensively patronized in the future, than it has been at any time in the past, and that the friends of education in this vicinity, may aid liberally in making it what it should be, a first class school for young ladies. It is already a good school, but if Chi-Delta, and Philomathesian Societies will be patronized as it should be, its managers will be enabled to make it still better.

ASTROLOGY. The World Astonished

AT THE WONDERFUL RETELATIONS MADE BY THE GREAT ASTROLOGIST, Madame H. A. PERRIGO. CHE REVEALS SECRETS NO MOR-TAL ever knew. She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the buniness you are best qualified to pursue and in what you will be most successful, causes speedy ten property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, lkoness and characteristics of the person.—She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mystories of the future. From the stars we see in the firmament—the malefic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but a triffs and you may never again have so favorable an opportunity. THE CHINGARORA ANTI-NERVOUS SMOKING TOBACCO. THE CHINGARORA TOBACCO GROW

THE CHINGARORA TOBACCO GROWfrom the rich sell of the "OBLENT," and is personned a
a peculiarly delicious favor entirely unknown to the tobacces of all other classes. But its unprecedented popularity
has spring from the fact of the entire absence of that deadly
poison, Nicofin, which permentes every other tobacco, and
which is the one and sole cause of the distressing nervoudiseases, dyspapets. Ec., which most invariably, somer or later, follow the ladeligence of the pipe and cigar. At the recent analyzation of tobacco from all parts of the world, at
the Academy of Sciences, in Paris, the renowned Chemist, M.
Lamouronny, declared that while European and Americatobacco contained fully eight per cent, and the purest Havans tobacco from two to five per cent, of Nicotio, th.
CHINGARORA did not contain one discoverable particle othat deadly poison, a drop of which, extracted, will destroy
life. Hise.

Our Agent at BONBAY has shipped us large quantities of the CHINGORORA during the past two years, and although we have been present to supply the demand for this delicious luxury to the veteran smaker, yet we are now prepared to offer it in unlimited quantities, at a price wuch lower than some American tebacco of a fee inferior quality.

A connoiseur has but to smake the American tebacco and segars, which are invariably chemically flavored, to be disgusted with the medicinal tasts which heaves a namescur, unhealthy coating in the month, and in time seldem fails to shatter the nervous system.

The natives of the "ORIENT" smake the CHINGARORA from more till night, from youth to age, and are happily anconacious of the wild, distressing free which courses through the veins of the inhaber of the fumes of tobacco containing Nicoths.

We invite every lover of the weed to try the CHINGARO BA, and guarantee unprecedented pleasure in its delicies SOLD EVERYWHERE AT SI PER POUND. EDWIN M. COOK & CO., Sole Agents and Importers of the CHINGORORA TOBACCO, for the United States and Canadas,
